#### Key

D = Dominant: the species appears at most (>60%) stops and it covers more than 50% of each sampling unit;

A = Abundant: species occurs regularly throughout a stand, at most (>60%) stops and its cover is less than 50% of each sampling unit;

F = Frequent: species recorded from 31-60% of stops;

O = Occasional: species recorded from 11-30% of stops;

R = Rare: species recorded from up to 10% of stops.

P = Present

LA = Locally Abundant

LF = Locally Frequent

LO = Locally Occasional
